Vegetation Removal Permit

Village Code Section 15-71

- (a) Unless otherwise provided in this chapter, no person, corporation, association, public agency, or agent or employee thereof, shall remove vegetation from any lot or portion thereof within the village without first obtaining a vegetation removal permit.
- (b) The Village of Royal Palm Beach is subject to the requirements of a vegetation removal permit however is not required to pay the permit fee.
- (c) Every effort shall be made to preserve and protect areas that include hardwood hammock, cypress heads, wetlands, palmettos, sand pine/scrub, or pine flatwood associations and shall include the above features in the open space requirements for the proposed developments.
- (d) **Exemptions** to the requiring a vegetation removal permit.
 - 1. Initial construction of individual single-family or duplex residents. The initial construction of one (1) single-family detached or one (1) duplex residence upon a single lot of less than one and five-tenths (1.5) acres in size not part of an overall development with approved landscape plans.
 - 2. Initial construction of structures accessory to individual single-family or duplex residences. The initial construction of buildings or structures accessory to one (1) single-family or one (1) duplex residence upon a single lot of less than one and five-tenths (1.5) acres in size.
 - 3. Hazardous situations. Removal of a protected tree which has been destroyed or so severely damaged by natural causes that it constitutes a peril to life or property.
 - 4. Bona fide agricultural production. Bona fide agricultural production, provided however that bona fide agricultural production shall not include lumber harvesting incidental to land development permitted by a bona fide site development plan.
 - 5. Vegetation by or pursuant to the direction of public or private utilities, public airports and heliports, the South Florida Water Management District, public drainage districts, and similar agencies, whether or not emergency conditions exist, provided that the vegetation is either:
 - (1) Located within utility or drainage easements or public rights-of-way;
 - (2) Actually or potentially interfering with utility services, drainage, or aircraft flight patterns.
 - 6. Botanical or horticultural activities. Botanical gardens, botanical research centers, or licensed commercial nurseries.
- (e) **Application Requirements:**
 - 1. A Generalized Vegetation Survey showing the approximate location and extent of vegetation upon the site.
 - a. For nonresidential and multifamily developments the survey may be in the form of an aerial or a field survey, and shall be accompanied by photographs illustrating areas of vegetation.
 - b. For individual single-family or duplex developments, the survey may be in the form of hand-drawn sketches accompanied by photographs of existing site conditions. The intent of this survey is to insure that the department is sufficiently informed by the applicant of vegetation conditions on the subject property prior to development.
 - 2. A Written Assessment and Evaluation and shall include an evaluation of vegetation type, quantity, and quality.
- (f) The applicant shall submit three copies of the application and accompanying documents.
